

## Manager - Laboratories Centre of Excellence

### Attractive Salary + bonus + benefits Process Development Group, Port Talbot/Llanwern

Working within a continuous improvement culture, the Chemistry Laboratories and metallurgical test facilities provide an essential analytical service across the manufacturing processes from chemical analysis of raw materials through to rigorous mechanical testing of the final product prior to despatch to our customers.

A natural leader with a strong science background (preferably chemistry, physics or steel related), you will oversee a large team and will spearhead the creation of a strategic road map for this area which will require the adoption of world class processes.

Your remit will be the transformation of our people and the service level interfaces across our business, involvement with budget and safety management, technical, environmental and Quality Assurance issues as well as effective policy implementation.

Recognising the challenges this role will afford, you will welcome the opportunity to apply your skills and expertise within an organisation that recognises and values your contribution.

**In return, we offer an attractive salary package including a pension scheme, 35 days holiday, private medical insurance, company car, performance related pay and a generous bonus arrangement based on business performance.**

**Please send your CV quoting reference 08/1641 to our retained consultant David Smalley at Daniels Smalley Partnership, Windsor House, 107 Talbot Road, Talbot Green CF72 8AE or email [david@danielssmalley.co.uk](mailto:david@danielssmalley.co.uk) Tel: 01443 229 761.
